## Fred Sathal Couture

A visual designer born in Marseille, her work takes form under various identities, with which it straddles the worlds of Haute Couture, theatre arts, and modern art. Her work is now part of the collections of several fashion museums in France, including the one in Marseille, which dedicated an exhibition to her in 2009, Sathal Créatures.

She creates unusual pieces, as if with a magic potion, finding joy in adorning the individual.

Her work lets those who wear it escape the mundane. It is an approach based on a profound sense of freedom, superimposing ideas, techniques, and effects. An undefined path where only her ability to follow the flow of energy guides her movements.
