

# DIOR MEETS THE MASTERS 2 NOW GEN

21/10/2016

## Intervention Dior - Master 2

On 20 October **Emmanuelle Favre**, Head of Human Resources at Christian Dior Couture and **Karin Raguin**, their Manager of Talent Development, met the students of the [Masters 2 Degree Course in Fashion and Textile Métiers](#) at Aix-Marseilles University - [AMU](#) co-created with the [MMMM](#). This was a unique occasion to discover the insides of the **Maison Dior** and the diversity of métiers and professions they use and propose, from fashion designs, to marketing, production and retail: a large and varied added-value process which is essential to appreciate fully when considering a professional career. An experience that the Masters 2 Students can make use of immediately when organising their work experience placement for next January, followed by their arrival on the jobs market later in the year.
