

GALERIES CLANDESTINES

LES GALERIES CLANDESTINES

Bringing together a group of independent fashion designers who number among the pioneers of contemporary fashion in the Mediterranean, who are also the ambassadors of a fashion which is free and uninhibited, mixing skills and know-how with modernity. Inspired by the ethnic influences of the Mediterranean, they affirm their identity through a style which is very influenced by the sun, and defiant of traditional diktats and conventions. Today their motivation is to contribute to the influence and reputation of Mediterranean fashion through their particular universes and the creations of the designers they work with. A fashion influenced by the sun, free and uninhibited, emancipated from conventions, but still keeping its elegance and simplicity. Their partnership with the Maison Méditerranéenne des Métiers de la Mode (MMMM) was an obvious choice, as for many years the MMMM has trained and supported talented fashion designers and creators based in their region and throughout the Mediterranean. Together they support a common project, that of promoting and developing fashion in our territory.

This partnership was responsible for creating the first Galeries Clandestines boutique in a prestigious designer outlet mall, by virtue of the partnership the MMMM has with the English Group McArthurGlen. An original concept.

McArthurGlen rapidly realised the special creative potential of Mediterranean fashion. The Group always works closely with the local communities, and continued to do so in 2013 when it became a partner and patron of the Maison Méditerranéenne des Métiers de la Mode.

« Meeting Maryline and her foundation was one of the reasons we were delighted to participate in this

project, which perfectly reflects the initiatives and qualities McArthurGlen looks to support. » **Julia Calabrese, CEO McArthurGlen.**
