**"I have participated last year, and I think our work has improved since that, maybe that's why I am**

**laureate this year."**

In 2013 **Luis Carvalho** is graduated in Fashion & Textile Design from School of Applied Arts of Portugal and launched his eponymous brand. After several experiences working in studios of renowned Portuguese designers, he launched his first capsule collection and a couple of months later, he was invited to participate in MODALISBOA, which he takes part ever since. His collections are constantly based in the classic tailoring, with attention to details and the aesthetic of the brand balances the classic and casual, with some boldness, along with his mixtures and contrasts that are already a recognizable LUIS CARVALHO signature.
