MOTIVATIONS

- Regional, national and international influence in resonance with my roots from Marseille

- Support and development of my company, direct contact with a network of experienced professionals, in-depth knowledge of the fashion market and its distribution.
-I have followed with great interest for several editions the evolution of the price, the inspiring white cards, but also the candidates, like Louis-Gabriel Nouchi, carried by their ambition and this new impetus that offers them the Maison Mode Méditerranée.

VALUES LINKED TO THE MMM (CRAFT TECH CARE & GIVE BACK)

During my experience as a leather / denim / jersey designer at Chloé, I was made aware over several seasons of the importance of the environmental impact and compliance with the GOTS standard. Aware of this responsibility, and of the human commitments during the production stages of a collection, I would like to work with suppliers and manufacturers labeled and approved by this organization.
